

T-Coat™

Low Friction Colored Coatings

Precision Associates' T-Coat™ is a resin bonded PTFE based dry film lubricant. Designed especially for rubber seals, this flexible coating is available in a number of colors. T-Coat™ may be applied to O-Rings, U-Cups, X-Rings and other rubber seals made in most common polymers.

The benefits of T-Coat™ PTFE coatings include:

- Easier seal installation, even while using automatic feeder systems
- Color Identification of different, but similar appearing compounds
- Low initial breakaway friction after extended non-use
- Much cleaner than oils or greases
- Unlike oils and greases, will not cause swell or shrink of rubber compounds

Precision Associates' T-Coat™ is available in these colors:

Chartreuse

Brick Red

Brown

Dark Green

Medium Blue

Dark Blue

Color may vary on actual product due to differences in polymers and seal surface finish.

Please contact your Precision Associates customer service representative for pricing or additional information regarding T-Coat™.

Ask us about our complete line of product literature:

- *Standard O-Rings*
- *Special Size O-Rings*
- *U-Cups*
- *V-Rings*
- *Rod Wipers*
- *X-Rings*
- *8-Rings*
- *Multiseal® Low Friction Seals*
- *Kurv-Bak™ Hard Rubber Backup Rings*
- *Rubber Balls*
- *Custom Moldings*

After 50 years in the rubber business, we've learned to be flexible. We'll bend over backwards to design custom solutions that meet your needs *precisely*. PAI is the company you can trust for rubber seal solutions YOUR WAY!

- Over 1,000 different compounds
- More than 2,100 O-Ring Sizes
- In-house tooling
- Custom Molding
- 98% on-time delivery
- Class 7 (10,000) Clean Room
